

# CARE INSTRUCTIONS

## Scarfs

- Hand Wash in Cold Water
- Hang to Dry
- Use Warm Iron Only  
(*on Silk or Delicate Settings*)
- **NO NEED To Use STEAM or Water**

When using an iron, do not iron the scarf directly.

First, place a cotton fabric on top of the scarf and iron the cotton fabric.

The heat will get transmitted thru the cotton fabric onto the silk scarf, thus avoiding any damage to the Silk fabric and embroidery.

in Cold Gentle Cycle
